INTRODUCTION

The Roster of State and Local Officers is published for the convenience of public officials, schools, business organizations, an individuals interested in the personnel of Indiana state and local government.

No attempt is made to arrange major departments, operating units, or territorial subdivisions on any basis of legal priority or importance. Likewise no effort is made at any schematic arrangement to indicate lines of authority or responsibility. In the constitutionally established "executive including the administrative department" we have listed first the elective officers and statutory executive or administrative departments. These are followed by the non-departmental, or as sometimes designated, independent administrative divisions, bureaus, etc., listed first as to administrative personnel then membership. In subdivision three of this section is a list of the trustees and chief executive or administrative officers of the state institutions.

The remainder of the roster follows along the general plan used previously except that under the "Judicial Department" are listed all the courts included in the state judicial system. Heretofore all state courts below the Indiana Appellate Court were listed in the local government section.

On page 25 will be found a Congressional Apportionment map, showing the apportionment of 1941 based on the census of 1940.

Because of the extensive coverage attempted in the roster listings it is almost inevitable that there will be frequent changes in state or local official listed personnel. This office will appreciate any changes or needed corrections which readers may call to our attention.

Free copies of the Roster may be obtained by addressing the State Board of Accounts, State House, Indianapolis.

OTTO K. JENSEN,
State Examiner.
